

# DRPC-100

Fanless Embedded DIN-Rail Mounting System with Intel® Atom™ N2600 Processor Support

## Features

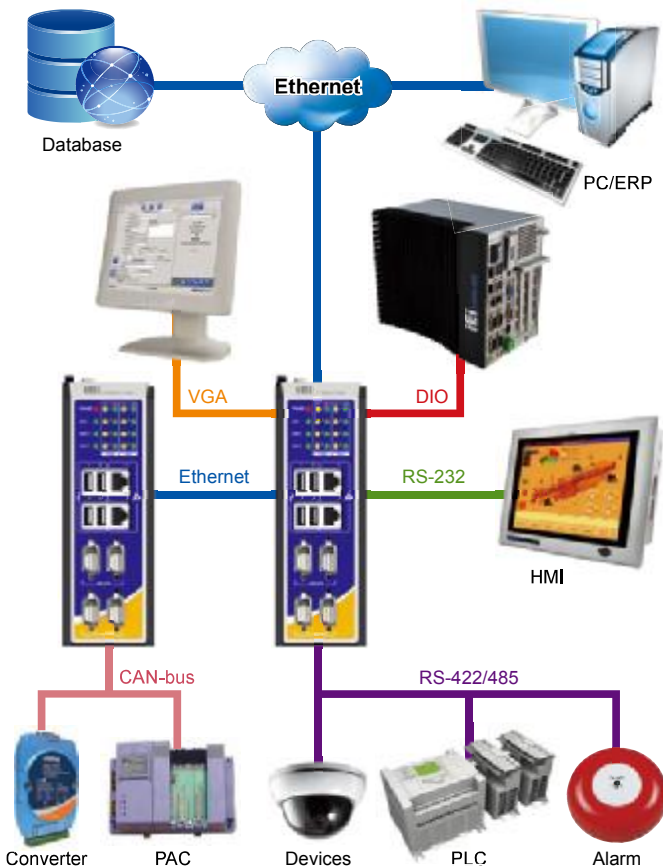

- ◆ Intel® Atom™ N2600 processor supported
- ◆ Low power consumption [N2600 + NM10 (3.5w + 1.5w)]
- ◆ Intel® GMA 3600 with a 400 MHz graphics core supports Blu-ray 2.0, DirectX 9, MPEG-2, H.264, C-1 and 1080p decoding
- ◆ Supports 800 MHz DDR3 SO-DIMM (up to 2 GB)
- ◆ Supports one mSATA, one SATA DOM and one CompactFlash®
- ◆ Wide range (9V~28V) DC power input
- ◆ PCIe expansion slot for adding more capacity
- ◆ Supports two GbE, four USB 2.0, two RS-232, two RS-422/485, two CAN-bus and one 8-bit DIO
- ◆ Serial, CAN-bus and Digital I/O interfaces with isolation
- ◆ Extended temperature fanless design supports -20°C to 70°C
- ◆ PCIe GbE LAN for high speed network application

DRPC-100 is designed for harsh environment applications, such as high surge ESD automation environments, factory automation, heavy vehicle application and building automation (elevator, warehouse with air-conditioning control system and environment monitoring).

## Communication Gateway

For high surge ESD automation environments, the DRPC-100 provides isolated digital IO, CAN-bus and serial communication ports.

## Micro Controller for Building Automation

With rich I/O ports, such as COM, USB, Ethernet, CAN-bus, DIO and VGA, the DRPC-100 is able to be like a micro controller for building automation.

## Fanless

The DRPC-100 series provides the best components for generating less heat, while maintaining high system performance. With the fanless design, the DRPC-100 reduces system failure caused by fans and extends the lifetime of the device.

## Wide Range DC Power Input

The DRPC-100 series accepts a wide range DC power input, allowing it to be powered anywhere, no matter if a 12V, 24V or 19V power adapter is available.

## Wide Range Temperature

The DRPC-100 series is designed to withstand wide temperature ranges. With this design, the DRPC-100 series can even be installed in a high-temperature roadside cabinet.

A DIN rail is a metal rail of a standard type widely used for mounting circuit breakers and industrial control equipment inside equipment racks. These products are typically made from cold rolled carbon steel sheet with a zinc-plated and chromated bright surface finish. The term derives from the original specifications having been published by Deutsches Institut für Normung (DIN) in Germany, which have since been adopted as European (EN) and international (ISO) standards.

### Rich I/O Function

**Four USB Ports**

Four USB ports can completely satisfy other USB devices or access requirements.

**Dual GbE Ethernet Ports**

Dual GbE Ethernet ports offer a diverse range of network communication options, helping users easily create an integrated industrial application that requires Ethernet protocols.

**Serial Ports Interface with Isolation**

Serial ports help millions of serial devices connect to the network for industrial applications. Our RS-232/422/485 serial ports provide powerful communication performance for all industrial device connectivity.

**CAN-bus Interface with Isolation**

Controller Area Network (CAN or CAN-bus) is a vehicle bus standard designed to communicate or detect errors with each other within a vehicle, industrial automation and medical equipment. This drastically reduces the chance of data loss and ensures system reliability and is suitable for intelligent networking I/O devices such as sensors or actuator of machines or plants.

**8-bit Digital I/O, 4-bit input/4-bit output Interface with Isolation**

The DIO channels are quite useful for remote controlling, such as device power on/off, LEDs on/off, counter and cash drawer control.

Dimensions (Unit: mm)

## Specifications

Model Name		DRPC-100
Chassis	Chassis Construction	Extruded aluminum alloy for fanless support move to next line
	Chassis Dimensions (WxHxD)	59.4mm x 170mm x 140mm
	Chassis Color	Black
Motherboard	Fanless	Yes
	Processor	1.6 GHz Intel® Atom™ N2600 dual core
	System Chipset	Intel® NM10
	Memory	One 204-pin 800 MHz DDR3 SO-DIMM (max. 2 GB capacity)
	Ethernet	Dual GbE by RTL8111E controllers
Storage	SATA	mSATA & SATA DOM support CF card support (top side)
System Function	USB	4 x USB 2.0 (front side)
	Ethernet	2 x RJ-45
	RS-232	2 x DB-9 with 3KV isolation protection (front side)
	RS-422/485	2 x DB-9 with 3KV isolation protection (front side)
	Display	1 x VGA (top side)
	Resolution	Up to 1920 x 1200 @ 60Hz
	DIO	1 x Phoenix terminal block with 3KV isolation protection, supporting 4-bit input/4-bit output (top side)
	CAN-bus	1 x Phoenix terminal block with 3KV isolation protection, supporting 2-port CAN-bus (top side)
	Interior Expansions	1 x PCIe Mini slot
	Buttons	Power on, reset button (top side)
Power	Power Input	PWR1: 9 to 28 VDC (3-pin terminal block)
	Power Consumption	12V@1.85A
	ATX/AT Mode	ATX/AT switch (top side)
Reliability	Mounting	DIN rail, desktop
	Operation Temperature	From -20°C to 70°C, 5% ~ 95% with air flow
	Humidity	5% ~ 95%, non-condensing
	Storage Temperature	From -30°C to 80°C
	Operating Shock	Half-sine shock test 5G/11ms, 3 shocks per axis
	Operating Vibration	MIL-STD-810F 514.5 C-1 (HDD), MIL-STD-810F 514.5 C-2 (SSD)
	Weight	TBD
	Safety & EMC	CE/FCC

## Packing List

1 x DRPC-100	
1 x Pluggable DC-in Terminal Block	1 x Utility CD
1 x QIG	1 x One Key Recovery CD

## Ordering Information

Part No.	Description
DRPC-100-N2600/LED-R10	Extended temperature fanless embedded system with Intel® Atom™ N2600, with 2GB DDR3 memory, two GbE, four USB 2.0, two RS-232, two RS-422/485, two CAN-bus, one 8-bit DIO, 9V~28V DC, -20°C~70°C, LED indicators, RoHS
DRPC-100-N2600/OLED-R10	Extended temperature fanless embedded system with Intel® Atom™ N2600, with 2GB DDR3 memory, two GbE, four USB 2.0, two RS-232, two RS-422/485, two CAN-bus, one 8-bit DIO, 9V~28V DC, -20°C~70°C, OLED indicator, RoHS
63000-FSP036RAB610-RS	Adapter power; FSP; FSP036-RAB; Vin:90~264VAC; 36W; Erp (NO LOAD 0.3W); Vout: 12VDC; Φ2.1/Φ5.5/lock; CCL; RoHS
32000-000002-RS	17.5cm European Standard power cord
32000-000025-RS	18.3cm American Standard power cord
IPE-5200IM-xxx	Flash disk; mSATA, SLC, 0°C ~70°C, R:160MB/s, W:150MB/s, 2GB~32GB
IPE-5200VM-xxx	Flash disk; mSATA, SLC, -40°C~85°C, R:160MB/s, W:150MB/s, 2GB~32GB
